

Regional Panel Recommendation Submission Form

- To be completed by the Regional Panel -

Regional Panel(s): Mid-Atlantic

Date Submitted: Nov. 19, 2020

Recommendation to the ANS Task Force: *State the recommended action including the following information, as appropriate.*

- **What:** What is the issue or challenge
- **Who:** *State which ANS Task Force members or committees should be responsible in responding to the recommendation.*
- **How:** *Describe the recommended approach to address the recommendation and desired outcome*
- **Timeline:** *Is the action time sensitive? If so, describe.*

The Mid-Atlantic Regional panel recommends that the Commonwealth of Virginia seek funding under the Nutria Control and Eradication Act of 2020 in order to control and eventually eradicate this invasive species in the Commonwealth, completing the eradication of nutria from the Chesapeake Bay Watershed. The Panel further recommends that the Aquatic Nuisance Species Task Force as a whole - and its member agencies individually - vigorously support Virginia's fiscal request.

Background Information: *In applicable, state key facts and pertinent information that has led up to the recommendation.*

The invasive rodent nutria has proven its capacity to destroy tidal wetlands, endangering wetland fish, wildlife, and ecosystem services and causing economic damage to fishing and tourism industries in under-resourced rural communities. It has been proven that nutria can be successfully eradicated in the Chesapeake Region, where the Eastern Shore population has been completely removed.

Link to ANS Task Force Strategic Plan: *State the goal(s) or objective(s) in the ANS Task Force Strategic Plan that would be supported by the recommendation.*

Goal 4: Facilitate capabilities to contain and control established ANS and restore native species and ecosystems
